

## SPECIAL PROMOTION

**Up to 20% Off  
Sodium Monitors**  
*Limited Time Only!*

Purchase any Thermo Scientific Orion sodium monitor and we will buy back any older sodium analyzer for a savings of up to 20% off list price!

Promotion valid April 15, 2009 through September 30, 2009. Valid for direct US customers only. You must indicate the promotional code FFNA09 at the time of purchase. This promotion may not be combined with any other coupon, discount or package. This promotion may be discontinued at any time and is void where prohibited by law or company policy.

# Thermo Scientific Orion 2111LL and 2111XP Sodium Monitors

The more you buy... the more you save!

- Purchase 1 to 3 monitors and save 12% off list price
- Purchase 4 to 6 monitors and save 15% off list price
- Purchase more than 6 monitors and save 20% off list price

You decide your savings!

Thermo Scientific Orion sodium monitor benefits:

- Designed for reliable, accurate and dependable sodium measurements
- Optimal performance and stability from new advancements in electrode chemistry
- Easy to use with fast calibrations
- Step-by-step prompting instructions on bright LCD for visibility in even the lowest light conditions
- Low cost of ownership and no costly moving parts
- Application and reagent packages provide flexible configurations from low range to high acid samples

# Thermo Scientific Orion 2111LL and 2111XP Sodium Monitors

Purchase a Thermo Scientific Orion sodium monitor with protective enclosure package or sodium monitor only package. If purchasing the 2111LLEN or 2111LL, select the 2111LL consumables package. If purchasing the 2111XPEN or 2111XP, select the appropriate application package for your desired measuring range and the corresponding reagent package.

This buy-back promotion is valid for any model of sodium monitor (ours or theirs!). The promotion begins April 15, 2009 and is valid through September 30, 2009. The customer is responsible for freight charges to return the product. The consumables, application and reagent packages are sold at current US list price, promotional discount applies to monitor packages only.

Cat No.	Sodium Monitor Packages
2111LLEN	2111LL low level sodium monitor with protective enclosure, sodium electrode (210048), reference electrode (210058), ATC probe (2100TP), standards kit (181140), CD user guide and options kit
2111LL	2111LL low level sodium monitor with sodium electrode (210048), reference electrode (210058), ATC probe (2100TP), standards kit (181140), CD user guide and options kit
2111XPEN	2111XP sodium monitor with protective enclosure, sodium electrode (210045), reference electrode (210056), ATC probe (2100TP), standards kits (181140 and 181141), CD user guide and options kit
2111XP	2111XP sodium monitor with sodium electrode (210045), reference electrode (210056), ATC probe (2100TP), standards kits (181140 and 181141), CD user guide and options kit

  

Cat No.	2111LL Consumables Package
211192	Sodium consumables package for one year operation, includes 6 x 0.8 L bottles of DIPA reagent with 6 diffusion tubing assemblies (211194), reagent bottle adapter (2100DRBA), standards kit (181140), sodium electrode (210048), reference electrode (210058), 5 x 2 oz bottles of reference filling solution, O-ring kit, check valve, 100 pipet tips (0.1 mL), restriction tube assembly, 2 x 60 micron inlet filters and filter gasket

  

Cat No.	2111XP Application Packages
2111XA	Ammonia application package for general purpose sodium measurements, includes ammonia reagent bottle adapter (2100ARBA) and diffusion tubing (150060)
2111XD	DIPA application package for low range sodium measurements, includes DIPA reagent bottle adapter (2100DRBA) and diffusion tubing (211194)
2111XC	Cation/high acid application package for cation exchange breakthrough and high acid samples, includes ammonia reagent bottle adapter (2100ARBA) and diffusion tubing (181160)

  

Cat No.	2111XP Reagent Packages
211160XP	Ammonia reagent package for one year operation, includes 12 x 2 L bottles of ammonia reagent (181130), diffusion tubing assembly (150060), standards kit (181141), sodium electrode (210045), reference electrode (210056), 5 x 2 oz bottles of reference filling solution (181073), O-ring kit, check valve, 100 pipet tips (0.1 mL), restriction tube assembly and inlet filters
211192XP	DIPA reagent package for one year operation, includes 6 x 0.8 L bottles of DIPA reagent (211191), 6 diffusion tubing assemblies (211194), standards kit (181140), sodium electrode (210045), reference electrode (210056), 5 x 2 oz bottles of reference filling solution (181073), O-ring kit, check valve, 100 pipet tips (0.1 mL), restriction tube assembly and inlet filters
211150XP	Cation/high acid reagent package for one year operation, includes 12 x 2 L bottles of ammonia reagent (181130), diffusion tubing assembly (181160), standards kit (181140), sodium electrode (210045), reference electrode (210056), 5 x 2 oz bottles of reference filling solution (181073), O-ring kit, check valve, 100 pipet tips (0.1 mL), restriction tube assembly and inlet filters
