

## Behind every great gauge is a dedicated supporting cast.

In the race to get there first, you need all the support you can get.

That's why every Thermo Scientific non-contact, online gauge is backed by a team of support professionals and field service engineers with the knowledge, experience, and personal commitment to keep you running full speed ahead.

We go beyond delivering products and performing routine service to offer onsite technical analysis and advice, preventive maintenance, and 24-hour telephone support. Plus, we maintain regional service and repair sites on five continents to keep your plant firing on all cylinders.

To learn more, call +91 (20) 6626-7000 or +49 (9131) 998-0 or visit [www.thermo.com/metals](http://www.thermo.com/metals).

**Thermo Scientific online gauges—** get the support you need to ensure quality, boost productivity, and control costs.
