## Support Plan Feature Definitions

### Preventive Maintenance

Three scheduled service visits per year, which includes labor, travel and any consumable items used during the maintenance visit.

### Technical Support

We will ensure telephone response by a technical specialist within a maximum of two hours of your call to us. With the Premium contract, response time is within one hour. Technical support is available during factory working hours.

### Response Time

A Thermo Electron technician will be on site within the defined time once a site visit is agreed and commercial requirements resolved.

### Spare Parts

To ensure maximum uptime, extra spare parts are available at a discount.

### Repair Visits

Depending on the type of contract, all costs for a repair visit may be covered, or you will receive a discounted labor and travel rate.

### Training

Realize the maximum benefit from your system by using our experts to train your staff, or to assist in activities related to the installation or setup of your system. A technician will conduct a brief update for operators and maintenance staff during the preventive maintenance visits.

### Management Review/ Service History Report

Thermo specialists evaluate call activity, assess common problems and recommend proactive maintenance solutions to improve the availability of your instrumentation. A detailed summary will be provided of reported problems, site visits, response time and resolution.

## Program Options

Protect your process by choosing the plan to suit you.

### Preventive Plan

Why wait for a failure to put your business in a crisis situation? Keep your system up and running with a Preventive Maintenance agreement. It provides peace of mind through proactive, scheduled preventive maintenance visits performed by our factory-trained technicians and technical support during standard business hours. In addition, you receive discounts on spare parts and training.

### Advanced Plan

The Advanced service contract provides an additional level of support beyond the preventive agreement. In addition to scheduled preventive maintenance visits, you get unlimited labor and travel for emergency visits, and larger discounts on spare parts.

### Premium Plan

Do you need to maintain maximum uptime? The Premium contract provides the quickest response time along with scheduled preventive maintenance visits, discounted consumables, unlimited service visits and periodic reports on the status of your system. The Premium contract provides the ultimate in support and its all-inclusive structure allows for simple administration and budgeting.

## Warranty Up-Lift

If your situation or process demands a little more support than our standard warranty, we can implement a warranty upgrade at minimal cost.
