

**DISCONTINUATION OF PARTS AND SERVICE
FOR OBSOLETE INSTRUMENTS**

June 23, 2004

Thermo Electron is dedicated to meeting the needs of our customers. We continually strive to provide you with the best value in products and services – including a commitment to support our products for as long as possible. Unfortunately, component obsolescence by our suppliers in the rapidly changing electronics industry is making it increasingly difficult, and in many instances impossible, for Thermo Electron to continue to provide spare parts and associated repair services for some of our oldest products. For several of these products, all of which we stopped manufacturing 7-10 years ago, we can no longer ensure the future availability of parts. The intention of this communication is to provide you with advance notice of our plans to discontinue spare parts and repair services for these products, so that you can plan accordingly.

Please take a few moments to review the attached Parts and Repair Services Product Obsolescence Announcement. This document identifies pertinent spare parts availability, repair services end dates, and currently available replacement product.

If you have any questions or require further information, please contact the Air Quality Products Customer Service Department at 508-520-0430 or toll free at 866-282-0430. Additionally, we can be reached via e-mail at customerservice@thermoei.com.

Thank you for your business and be assured that your continued success is important to us.

Sincerely,

Michael Nemergut
