

**NOTIFICATION OF DISCONTINUED AND LIMITED PARTS
AVAILABILITY PRODUCTS (99P224) Sht. 1 of 5**

August 26, 2002

Thermo Electron Corporation, Air Quality is dedicated to supporting the product, service and repair needs of our customers, and we continually strive to provide you with the best value in products and services. Included in this commitment is the policy of supporting our products for as long as possible. However, this is becoming increasingly difficult. Component obsolescence by our suppliers in the rapidly evolving electronics field, coupled with diminishing demand for older technology, makes it impossible for Thermo to continue the promotion of these products. In instances where this occurs, it is our intention to inform you of products, spare parts and repair services that will be discontinued.

Please take a few moments to review the attached Product Obsolescence Announcement. This document will serve as notice that the products described are, or will be, discontinued, and identifies the level of support you should anticipate in the future. If you have any questions or concerns, please contact the Air Quality group shown in the attached document.

Insofar as future notifications on obsolete products are concerned, the level of support and timeframes for discontinuation of these products will be defined in advance, and will be identified in the Product Obsolescence Announcements. Products that have been sold in low volume, or are of extremely old technology, will be targeted first. Products with large installed bases will have longer terms of support. In some cases, we will discontinue the manufacture of products, but will continue to support repair.

We will do all that we can to work with you should you find that one of the items listed in the enclosed notice may hinder your operations. If you are looking to replace your current products, Thermo has a wide variety of new and advanced technology systems to meet your air monitoring needs. Plus, a trade-in program toward the purchase of a new analyzer may be available. Please contact our Sales Department at 508-520-0430 for more details. Your continued success is important to us.

Rev.1.3
Document ID Number: 99P224

Subject: Notice for Discontinued Equipment
Product and Service

Item # 1 of 28	Product Name: 580S, 580S/DLX	Replacement Equipment: 580SII	Phase-Out Period: Immediate
	Service End Date: 11-30-2009	Spare Parts End Date: 11-30-2009	
Item # 2 of 28	Product Name: 580EZ, 580EZ/DLX	Replacement Equipment: 580SII	Phase-Out Period: Immediate
	Service End Date: 11-30-2009	Spare Parts End Date: 11-30-2009	
Item # 3 of 28	Product Name: 300	Replacement Equipment: None	Phase-Out Period: Immediate
	Service End Date: 11-30-2009	Spare Parts End Date: 11-30-2009	
Item # 4 of 28	Product Name: 350	Replacement Equipment: None	Phase-Out Period: Immediate
	Service End Date: 11-30-2009	Spare Parts End Date: 11-30-2009	
Item # 5 of 28	Product Name: 800	Replacement Equipment: None	Phase-Out Period: Immediate
	Service End Date: 11-30-2009	Spare Parts End Date: 11-30-2009	
Item # 6 of 28	Product Name: 145	Replacement Equipment: None	Phase-Out Period: Immediate
	Service End Date: 11-30-2009	Spare Parts End Date: 11-30-2009	
Item # 7 of 28	Product Name: 1150	Replacement Equipment: 1155	Phase-Out Period: Immediate
	Service End Date: 11-30-2009	Spare Parts End Date: 11-30-2009
